

Faizan Hamid

Hyderabad, TG | 9682589618 | faizan.hamid1996@gmail.com | LinkedIn | Github

PROFESSIONAL SUMMARY

Software Engineer with experience in building scalable, production-grade web applications. Skilled in React.js, TypeScript, JavaScript, GraphQL, and the MERN stack, with proven impact delivering **web platforms used by 50,000+ users** and **internal admin platforms supporting business operations**. Strong expertise in modern web development, API integration, and performance optimization.

EXPERIENCE

UpGrad, Hyderabad | Software Engineer I

Dec 2023 - Present

- Built **Order Management System (OMS)** using React Admin and TypeScript, streamlining end-to-end course/program lifecycle management for business teams
- Implemented Application Fee collection flow, enabling post-submission payments, generating **Rs 0.61 Cr** in revenue
- Delivered role-based admin workflows using React, REST APIs, and GraphQL, building analytics dashboards, secure access control, and scalable operational tools for multiple user personas
- Developed a **Content Management System (CMS)** using React and GraphQL for creating, versioning, publishing, and reusing learning content, supporting course and program management
- Optimized application performance through **code splitting**, **lazy loading**, and **memoization**, improving load times and user experience
- **Developed reusable UI components** and centralized state management with **Redux Toolkit** and **Redux Saga**, reducing code duplication and improving development efficiency
- Collaborated with Product and Backend teams to deliver accessible, and production-ready features aligned with business requirements
- Improved code quality through code reviews, knowledge sharing, and react best practices

Digrowfa Private Limited, Delhi | Software Developer

Oct 2022 - Nov 2023

- Developed full-stack MERN applications using React, Node.js, Express.js, and MongoDB for business and customer-facing solutions
- Implemented reusable frontend components and REST APIs to support core application functionality and business workflows
- Enhanced application performance and user experience through real-time features, performance optimizations, and cross-browser compatibility improvements
- Worked closely with developers and stakeholders to deliver features, troubleshoot issues, and support production releases

SKILLS

- **Frontend:** React.js, TypeScript, JavaScript (ES6+), Redux Toolkit, Redux Saga, React Hooks, React Router, React Admin, Material UI (MUI), Tailwind CSS, HTML5, CSS3
- **Architecture:** Node.js, Express.js, Python, REST APIs, GraphQL (Apollo Client), JWT Authentication, MVC Architecture, WebSockets, MongoDB, MySQL, SQL
- **Cloud & DevOps:** Git, GitHub, Bitbucket, Docker, Kubernetes, Jenkins, AWS (S3), Kafka
- **Testing & Development:** Jest, React Testing Library, ESLint, Prettier, Agile (Scrum), CI/CD, Performance Optimization, Responsive & Accessible UI
- **AI:** Claude, Cursor AI, GitHub Copilot, ChatGPT

PROJECTS

CMS — Learning Content Management Platform (React, TypeScript, GraphQL, Nx, Keycloak)

- Built a centralized CMS to author, version, and publish learning content powering **300+ programs and reaching 50,000+ learners** through a structured Draft → Review → Published workflow
- Enabled role-based access so each user sees and acts only on the content relevant to their role
- Implemented reusable content workflows, enabling videos, PDFs, SCORM packages, quizzes, and labs to be authored once and reused across multiple programs.

EDUCATION

Bachelor of Engineering (B.E.), Civil Engineering

Maharshi Dayanand University (MDU), Delhi

Aug 2015 - June 2019

CERTIFICATIONS

Full Stack Web Development

Masai School, Bengaluru

Sep 2021 - Aug 2022
